POWER SUPPLY & A.C. INPUT

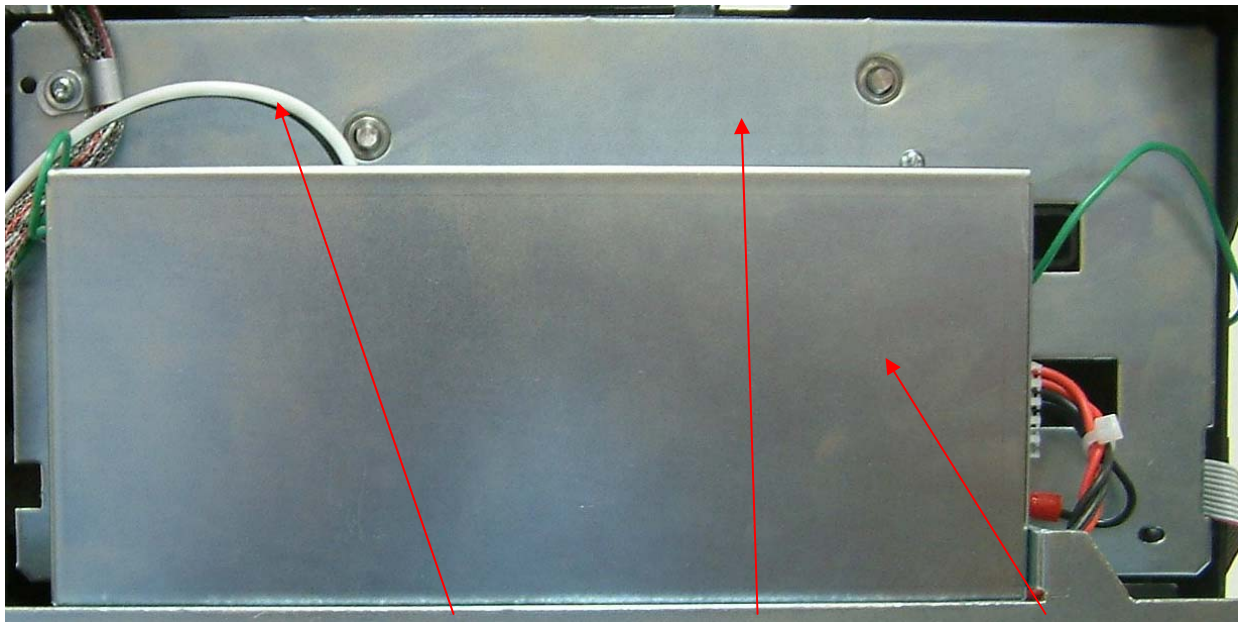
NEW DESIGN

From Sept 08, the AC input and power supply are replaced with new parts:

1-The AC input socket, the ferrite and filter are now one single block (105912G-155). If you need to upgrade this to an older printer, you will need the kit with the plate (kits -153 or -154).

2-The power supply (-773) cannot be sold as single item. The power supply will be mounted onto the back plate and will have the shield and AC cable (kits -152 or -157)

P330i/P430i ROHS Spare Parts List



This kit has the AC cable, the back plate, the shield and the power supply.

DESCRIPTION	KIT NUMBER	PRICE
